**The Winchester Business and Professional committee met at the Winchester Annex. at noon today. The plans for the square renovation in relation to the Grant awarded was discussed. The plaza will not be built in the 1<sup>st</sup> phase of the Grant but will be placed in the 2<sup>nd</sup> phase when we resubmit for it. Different styles of street lights were discussed. Beth will be bringing pictures to our next meeting. The February meeting will be devoted to outlining all the things we want the city council to put in their time line for the utility company to put on their planning schedule and the terms we feel are absolutely necessary for the renovation to be successful. We reviewed the information supplied us about the McMinnville downtown renovation. The meeting was adjourned at 1:10.**
