

Winchester Municipal Airport

420 Aviation Drive, Winchester, TN 37398

931-967-3148

First laid out in 1968, the Winchester Municipal Airport is a general aviation airport owned and operated by the City of Winchester, Tennessee, conveniently situated within an hour of Huntsville, Chattanooga, and Nashville. Located adjacent to US Highway 64, the airfield is just minutes from several nearby cities, area industrial parks, Tims Ford Lake & recreation area, Interstate Highways 24 & 65, and many other attractions.

The airport also serves as an invaluable asset to many of the various companies and educational institutions located in the area. Not only do these entities employ several thousand local residents, but they provide services for millions more.

When originally constructed, the airport consisted of a 3,000 foot runway and a small taxiway with ramp area. Today the airport boasts a 5,000 foot long runway, a modern terminal building, an on-site AWOS-3 facility, and multiple approach procedures which allow aircraft to land more safely.

Because of its ideal location and various growth initiatives over the years, the airport has grown to become one of the premier ports of entry for Southern Tennessee.

Services Available to Pilots

We are dedicated to providing you with efficient and professional service while visiting Franklin County. To that end, we are pleased to be able to offer the following services:

- **24 Hour a Day Fueling:** Both 100LL and Jet-A are available for your aircraft. Although we offer full-service fueling during operating hours, a self-service farm is available 24 hours a day for after hour fueling needs.
- **Aircraft Tie-Down and Hangaring:** An ample amount of ramp space is available to secure your aircraft. For those interested in staying out of the elements, hangar space is available as well. Please contact us for our latest rates.
- **Courtesy Transportation:** Vehicles are available seven days a week between the hours of 0800 and 1700. Rental cars can be arranged as well, with notice.
- **Supplies & Refreshments:** From Maps to Engine Oil to Fresh Coffee, we have the supplies you'll need. Additionally, Restrooms and Wireless Internet are available 24 hours a day.

Corporate Operations

Whether visiting the University of the South or meeting with new clients is the agenda, we will go out of our way to make sure you always feel at home. The following amenities are available to passengers and flight crews:

- **Modern Terminal:** 3,000 square feet of terminal with passenger waiting area, conference room, and 24 hour pilot lounge.
- **Wireless Internet:** Complimentary within the main terminal.
- **Rental Cars:** Available through multiple locations. Contact us for more details.
- **Catering:** Breakfast, Lunch, Dinner, and snacks are all available through multiple vendors.

Please contact us for any other assistance you may require or needs that you may have.

Cargo Operations

With several manufacturing facilities located within minutes, cargo operations have become a regular occurrence at the Winchester Municipal Airport. Accordingly, the following amenities are available for cargo operators:

- **Freight Flexibility:** We are more than happy to assist with your loose freight, but also have a forklift standing by to load/unload palletized freight.
- **Late Night Operations:** Our staff is available after hours* for freight loading/unloading & fueling of aircraft. The recent addition of flood lighting to our ramp has increased both efficiency and safety at night.
- **Nearby Accommodations:** A wide variety of hotels & restaurants are available while on stand-by for your next trip. We are happy to assist you with transportation to and from these destinations.

Please contact us directly for any additional information you may require.

* After Hours Fees may apply.
